

AgFutures Forum and Discussion: Diversification, Carbon Toolkits and Soil Biology

Invitation

You are invited to an AgFutures Forum. This event is a follow up to the photo exhibition held in April 2009.

The forum will explore options for farmers to consider to meet the challenges and opportunities presented by climate change.

The forum will include:

Thinking about Diversifying?

Scott Williams (SED Consulting) will present: Evaluating an Agribusiness Opportunity.

Confused about Carbon?

Chris Gerbing (DPI) will present an update on the emissions trading scheme and the tools and information available to help agricultural industries.

Is your soil healthy?

Tim Johnston (DPI) will present: Managing your organic matter and soil biology.

This presentation will be followed by a soil pit demonstration (walking distance from venue).

Event Details:

Wednesday, September 30, 2009

7.30am: Breakfast

8.15am to 1pm: Forum

Modewarre Memorial Hall

Cape Otway Rd, Modewarre

Catering provided
